Dear **Muhammed Yaseen Y,**

We are pleased to offer you the position of **Research & Development Engineer and Trainer at Diagtools**. Your skills and interest in this field make you an excellent fit for our team, and we look forward to your valuable contributions.

1. Joining Date
Your joining date will be communicated to you in advance through email or message.

2. Salary Structure
Your compensation will be provided in the following phases:
• Training Period – First 1 Month
You will receive a stipend of ₹8,000/- for your basic needs during the initial training period.
• Next 2 Months
You will receive a basic salary of ₹15,000/- per month.
• After Completion of 3 Months
Based on your performance, which will be evaluated through an interview:
Your revised salary after the 3-month evaluation will be issued in writing through a revised salary letter.

3. Accommodation
The company will provide accommodation throughout your employment. This includes room/house rent only. Other expenses such as food, electricity, maintenance, and personal costs are not included unless specified otherwise.

4. Terms of Employment
Further details, responsibilities, and employment policies will be provided in your appointment letter on the date of joining.
We are excited to welcome you to Diagtools and believe that your contribution will be valuable to our organization.
If you accept this offer, please sign below and return a copy to confirm your acceptance.
